SERIOUS OSHA CITATIONS THRU 4th QUARTER FY2013

Naval Air Station Fallon, Pwd Environmental Division 4755 Pasture Road, B- 307nas Fallon, NV 89496	7/30/2013	Planned	Serious	1910.303(b)(1)	General. Examination, installation, and use of equipment -- Examination. Electric equipment shall be free from recognized hazards that are likely to cause death or serious physical harm to employees. Safety of equipment shall be determined using the following considerations: (b)(1)(i) Suitability for installation and use in conformity with the provisions of this subpart; Note to paragraph (b)(1)(i) of this section: Suitability of equipment for an identified purpose may be evidenced by listing or labeling for that identified purpose. (b)(1)(ii) Mechanical strength and durability, including, for parts designed to enclose and protect other equipment, the adequacy of the protection thus provided; (b)(1)(iii) Wire-bending and connection space; (b)(1)(iv) Electrical insulation; (b)(1)(v) Heating effects under all conditions of use; (b)(1)(vi) Arcing effects; (b)(1)(vii) Classification by type, size, voltage, current capacity, and specific use; and (b)(1)(viii) Other factors that contribute to the practical safeguarding of persons using or likely to come in contact with the equipment. Naval Supply Systems Command, Fallon, 4755 Pasture Road, Bldg 64nas Fallon Fallon, NV 89496	7/30/2013	Planned	Serious	1910.213(c)(1)	Woodworking machinery requirements Hand-fed rip saws. Each circular hand-fed rip saw shall be guarded by a hood which shall completely enclose that portion of the saw above the table and that portion of the saw above the material being cut. The hood and mounting shall be arranged so that the hood will automatically adjust itself to the thickness of and remain in contact with the material being cut but it shall not offer any considerable resistance to insertion of material to saw or to passage of the material being sawed. The hood shall be made of adequate strength to resist blows and strains incidental to reasonable operation, adjusting, and handling, and shall be so designed as to protect the operator from flying splinters and broken saw teeth. It shall be made of material that is soft enough so that it will be unlikely to cause tooth breakage. The hood shall be so mounted as to insure that its operation will be positive, reliable, and in true alignment with the saw; and the mounting shall be adequate in strength to resist any reasonable side thrust or other force tending to throw it out of line.
